

Dear HIS Partner,

Further to the completion of your Self-Evaluation Form and subsequent discussion with one of our representatives, we are pleased to confirm your 2011 Honeywell Integrated Security (HIS) Certification level status as follows.

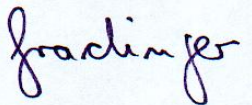

Zarifopoulos s.a.
is
SILVER

This certification level is based on the following results which were achieved during 2010.

| Category | Self Assessment | Audit Results |
|--|-----------------|---------------|
| Product Training Pro-Watch® Eco System | 5 | 0 |
| Product Training Pro-Watch EE | 0 | 0 |
| Product Training LobbyWorks™ | 0 | 0 |
| Product Training PVMS | 10 | 10 |
| Product Training Pro-Watch Advanced | 0 | 0 |
| Project Management | 10 | 10 |
| MCSE/MCDBA Certification | 5 | 5 |
| SSA Retention | 0 | 0 |
| Customer satisfaction | 10 | 10 |
| Test Facility | 10 | 10 |
| CAD Capabilities | 10 | 5 |
| Total: | 60 | 50 |

We congratulate you and your colleagues for achieving this level of Integrator Certification. Thank you for all your efforts in 2010 and we look forward to continue building our relationship and business together in the coming year. An official HIS plaque showing your Certification level will be sent to you shortly.

Please do not hesitate to contact us if you have any further questions.

Recommendations

Part of the certification score (42%) is based upon Product training. HIS places a high value on this aspect of the skill set of our Partners. The table below reflects the time that your company invested in training your technicians.

| Training Type | 2010 | 2009 |
|-------------------------------|-------------|-------------|
| Pro-Watch Eco System training | 0 | 0 |
| Pro-Watch Advanced | 0 | 0 |
| Pro-Watch Enterprise | 0 | 0 |
| Pro-Watch Video Manager | 0 | 1 |
| Pro-Watch Visitor Management | 0 | 0 |

Pro-Watch training certificates are valid for 2 years whereas training certificates for Pro-Watch Visitor Manager (LobbyWorks) are valid for 3 years. Therefore any Pro-Watch training carried out in 2009 will not count towards your 2011 Certification assessment.

In order to maintain or improve your present Certification level you can decide, based on the overview above, to update the skill level of your technical team by enrolling them on one of our product training courses HIS is offering. An overview of our product training courses can be found on our website www.honeywellintegrated.eu via the exclusive HIS Integrators only section and also in our HIS pricebook.

Integrators holding a Platinum certification level are allowed to conduct in-house Pro-Watch Eco System training for members of their own technical teams. Training test results must be submitted to HIS within 1 month of the actual training session for registration. Official HIS Pro-Watch training certificates will be returned by post. To ensure relevancy, in-house trainers must successfully complete refresher training on the respective Honeywell products every two years.

In addition, Closing Software Support agreements not only benefit the support you can provide for your customers, but they're also considered when assessing your Certification level.
